## GRAND OPENINGS

A field trip is being planned for Sunday, July 13 to photograph parachute jumpers at Garrettsville, Ohio. For details and directions, please contact George Fowler. If the weather is bad, an alternate activity will be planned.

## GETTING THE WORKS

Here are some tips to help you get award winning shots of fireworks on this 4th of July. Use this simple guide for exposing slide film;

ASA	64	200	400	800 (ESP-1
f/stop	f/8	f/11	f/16	f/22 process)

Mount your camera on a tripod, use a cable release and set the exposure to T or B. For one image, keep the shutter open for 2 or 3 bursts of fireworks. For added interest, try to include illuminated buildings, reflections in water, or silhouettes of spectators in your composition.

You can also get some unusual effects by handholding your camera for 2 or 3 second exposures. The camera movement will add a painting-like effect to the lights. Exposures of isolated bursts can be used for creating lively montage compositions.
