FEBRUARY 1985

HELP US SAVE POSTAGE.

Every first Friday of the month we distribute CPS Newsletter or TTDD at our clubroom. On the green table at the bulletin board is placed the mailing list. All members who pick up the CPS publications are requested to check off their names on the list.

USPS has increased the postage again. Please help to save on our mailing expenses!

DID YOU MISS TWA CAMERA DEAL?

It was a holiday offer from Polaroid Corp. and Trans World Airlines with the best intentions: give camera buyers a bonus and boost air travel. The deal was too sweet for bargain-hunters to miss. By buying a \$ 16 one step camera, traveler could save up to \$ 90 on a ticket to West Coast or \$ 200 on a trip to Cairo, Egypt. This offer, however, expired January 31st, but coupons are good for travel through April.

MINOLTA'S NEW BABY.

After 3½ years in the making Minolta Corp. unveiled a new camera. It is not only the electronic gizmo of 1985, but the most important product in its 56-year history.

The Maxxum 7000 is a sophisticated 35mm SLR camera with the help of computer technology will automatically do everything except load the film. Two 8-bit microprocessors control - lens focusing, shutter speed and exposure setting. The Maxxum will not allow a fuzzy picture.

Minolta calls the camera revolutionary. Industry experts describe it as innovative, important; All agree it will change the market place.

Suggested list price for Maxxum with 50mm f/1.7 lens is \$ 508. A dozen interchangeable lenses are not yet priced. Will be in the stores by mid-February, accompanied by a \$ 1 million to \$ 5 million advertising blitz.

There is another Minolta for you, Bob!

BLIPS...

TV forecast before CPS field trip:
"Tomorrow's weather will be chancey,
followed by partly iffy!"

Miami quarterback Dan Marino, before
Superbowl, was a **picture**-perfect passer.
People said, "He has an arm like
a camera shutter; he reads the field
and click- lets the ball go." Sorry,
Dan, SF 49ers put you out of focus!
