ISLAND-HOPPING CRUISE

The Island-Hopping Cruise is back by popular request. We will again be boarding the *M.V. City of Sandusky* at the SBL dock at the end of Columbus Avenue in downtown Sandusky (map will be on ticket). The main deck is now air-conditioned with table seating near the snack and liquid bar. You may also wish to explore the upper deck for shaded seating or the Sun deck for gull shots.

WHEN: August 26th.

HOW MUCH? \$26.00 includes 5:30 buffet.

SCHEDULE: 9:30-a.m. departure for 11:30 arrival at Put-In Bay for a 3-1/2 hour stop. Sightseeing is your choice. Narrated tram tour is available (for a fee) or just explore on your own. There is a winery, Perry monument, Cones beach, and numerous trendy shops for non-photographers.

At 3:00-p.m. we will depart for Kellys Island for a 1-1/2 hour stopover. For sightseeing, golf carts will be available at the dock and there is another tram. Remember, the on-board buffet will be served promptly when we reboard, so pass the lunch stands. There is another winery, a toy museum, and of course, shops as well as a quaint town to explore. Return to the dock at 5:30. Arrival time at Sandusky is 6:30-p.m.

We must have 20 participants to qualify for the on-board buffet and boat rate of \$26, so please purchase your tickets **NOW**. However, if you can't, the deadline is August 14th.

FOR RESERVATIONS: Call Dale Keeler (662-7219), Maria Kaiser (229-4130), or Ruth Morrison (961-8817).

PHOTOGRAPIC ASSIGNMENT: Prizes will be awarded for the best slides depicting:

- Our boat
- People having fun
- Sea Gulls
- "Colorful"
- "Old Fashioned."

We will have a post-cruise party where the photos taken will be shown and the prizes awarded. The date will be announced in a future issue of The Darkroom Door.

CALANDER CHANGE

Please note a switch in two scheduled events: the camping trip planned for August 11th is postponed until October 13th and the photojournalism competition listed for that October date will be changed to August 11th. Why? Because the campgrounds won't be as crowded at the later date, the autumn color will photogenically gaudy, and the weather will be refreshingly brisk!

THE SKY IS THE LIMIT

The July issue of the PSA Journal printed its *Star Ratings*. In Color-Slide Division, our very own Joe Brilla was awarded *Seventh Galaxy*. Joe started ascent into the PSA space journey by achieving 5 stars, and now he has reached its top level.

BLANK SLIDES

Also in the July issue of PSA Journal was an article by Ruth G. Johnson in the magazine's *Diffuser* section. Her complaint? "When showing a program, there is nothing more annoying than having nothing in the gate, so that a bright light comes on when you finish a tray of slides."

She suggests using a dark slide at the end so this won't happen.

Some of CPS projectionists are committing this sin too. There are plenty of various-titled slides and one blank (grey) slide which were created for this purpose. Please use them.
